

The right people ready to provide expert advice

ABC Board Certified Orthotist and Pedorthist

The Foot Performance Center is an ABC Accredited Facility, recognized by Medicare, Medicaid and most third party payors, to treat many conditions of the foot and lower extremity.

By combining a large inventory of orthopedic footwear we can fit any prescribed lower extremity orthoses into footwear.

The fitting of a leg brace or AFO (Ankle-Foot Orthosis) into footwear is essential when assuring the best outcomes and patient satisfaction.

Our Orthotist and Pedorthist work together to assure the best function and fit of lower extremity orthotics and footwear to give you the comfort and performance you deserve.
